Contents

PART 1

i Editorial
1 Comparative ecophysiology of C_3 and C_4 plants: review
R. W. Pearcy & J. Ehleringer
15 Grain or coleoptile tip as the source of IAA in cereal shoots? opinion
D. L. Jackson & J. A. McWha
23 CAM and carbon istope composition: origin of the constitutive carbon in young leaves of *Bryophyllum daigremontianum* Berger
E. Deléens & O. Queiroz
29 Responsivity amplification by light in phytochrome-mediated induction of chloroplast glyceraldehyde-3-phosphate dehydrogenase (NADP-dependent, EC 1.2.1.13) in the shoot of milo (*Sorghum vulgare* Pers.)
R. Oelmüller & H. Mohr
39 The effect of red and far-red light in the high irradiance reaction of phytochrome (hypocotyl growth in dark-grown *Sinapis alba* L.)
B. Heim & E. Schäfer
45 Effects of temperature on the development of *Sinapis alba* L.; phytochrome-control of nitrate reductase activity at 10°C
S. M. Moroz, E. A. Alford & C. B. Johnson
53 Photosynthesis and wood structure in *Pinus radiata* D. Don during dehydration and immediately after rewatering
D. W. Sheriff & D. Whitehead
63 Kinetic changes with temperature of phosphoenolpyruvate carboxylase from a CAM plant
I. C. Buchanan-Bollig, M. Kluge & D. Müller
71 Book reviews

PART 2

75 Sensitivity to phytohormones determined by outer-inner polarity of higher plants: an overall model for phytohormone action: opinion
S.-J. Liu & E. Tillberg
81 Non-random leaf orientation in *Lactuca serriola* L.
K. S. Werk & J. Ehleringer
89 Regulation of phenylalanine ammonia-lyase activity and growth in lettuce by light and gibberellic acid
L. Barnes & R. L. Jones
97 Growth distribution during first positive phototropic curvature of maize coleoptiles
M. Iino & W. R. Briggs
105 CAM activity and day/night changes in the ultrastructure of stem chlorenchyma of *Cissus quadrangularis* L. as influenced by drought
A. Virzo de Santo, R. Ligrone, A. Alfani, A. Fioretto & G. Russo
113 Dynamic changes of protoplasmic volume and of fine structure during osmotic adaptation in the intertidal red alga *Porphyra umbilicalis*
A. Knoth & C. Wiencke
121 Abscisic-acid-induced turion formation in *Spirodela polyrrhiza* L. III. Specific changes in protein synthesis and translatable RNA during turion development
C. C. Smart & A. J. Trewavas
133 Effect of salt and soil water status on transpiration of *Salsola kali* L.: short communcation
A. Eshel & Y. Waisel
139 A new method in growth-electrophysiology: pressurized intra-organ perfusion: technical report
H. Okamoto, A. Mizuno, K. Katou, Y. Ono, Y. Matsumura & H. Kojima
149 Book reviews
152 Erratum

PART 3

153 Structure and properties of pectin gels in plant cell walls: review
M. C. Jarvis
165 Use and abuse of osmo-terminology: opinion
R. H. Reed
171 Voltage transients elicited by sudden step-up of auxin: opinion
B. G. Pickard
179 The role of capacitance in the water balance of Andean giant rosette species
G. Goldstein, F. Meinzer & M. Monasterio
187 Ethanol synthesis and loss from flooded roots of *Medicago sativa* L. and *Lotus corniculatus* L.
A. L. Barta
193 Characterization of a proton pump from pea stem microsomes
A. Vianello & F. Macrì
199 Acclimation of leaf growth to low water potentials in sunflower
M. A. Matthews, E. Van Volkenburgh & J. S. Boyer
207 Leaf expansion in sunflower as influenced by salinity and short-term changes in carbon fixation
H. M. Rawson & R. Munns

215 Increase in calmodulin level in the early phases of radish seed (*Raphanus sativus*) germination
M. Cocucci
223 Evidence contrary to the existence of storage lipid in leaves of plants inhabiting cold climates
A. M. Hetherington, M. I. S. Hunter & R. M. M. Crawford

PART 4

229 Electrical sizing of cells of the halophilic alga *Dunaliella parva*
A. Zmiri, Y. Wax & B.-Z. Ginzburg
239 Gaseous factors involved in the enhanced elongation of rice coleoptiles under water
K. Ishizawa & Y. Esashi
247 Light interception by grain legume row crops
D. A. Charles-Edwards & R. J. Lawn
253 Relationship between salt accumulation and water content of dicotyledonous halophytes
E. P. Glenn & J. W. O'Leary
263 Possible significance of changes in the light requirement of *Cirsium palustre* seeds after dispersal in ash coppice
T. L. Pons
269 Photoperiodic time signals during twilight
J. E. Hughes, D. C. Morgan, P. A. Lambton, C. R. Black & H. Smith
279 Effects of photoperiod and ageing on the carbon isotope composition of *Bryophyllum daigremontianum* Berger
E. Deléens & O. Queiroz
285 Carbon dioxide blocks the stigma callose response following incompatible pollinations in *Brassica:* short communcation
P. O'Neill, M. B. Singh, T. F. Neales, R. B. Knox & E. G. Williams
289 Book reviews

PART 5

293 Carbon, water and nutrient relations of two mistletoes and their hosts: A hypothesis
E.-D. Schulze, N. C. Turner & G. Glatzel
301 A field study of photosynthetic temperature acclimation in *Carex eleocharis* Bailey
R. K. Monson
309 Phytochrome control mechanisms in leaf expansion of *Phaseolus vulgaris* cv. Limburg
S. Horemans, H. A. van Onckelen & J. A. de Greef
317 Mechanism of nitrate uptake into *Chara corallina* cells: Lack of evidence for obligatory coupling to proton pump and a new NO^-_3/NO^-_3 exchange model
C. E. Deane-Drummond
325 Light gradients in shoots subjected to unilateral illumination—implications for phototropism
A. Parsons, K. Macleod, R. D. Firn & J. Digby
333 Simulated acid rain induces lipid peroxidation and membrane damage in foliage
L. S. Chia, C. I. Mayfield & J. E. Thompson
339 Leaf conductance and transpiration, and water relations of evergreen and deciduous perennials co-occurring in a moist chaparral site
H. W. Calkin & R. W. Pearcy
347 Seasonal progressions of tissue and cell water relations parameters in evergreen and deciduous perennials
H. W. Calkin & R. W. Pearcy
353 Germination responses of a non-dormant seed population of *Amaranthus patulus* Bertol. to constant temperatures in the sub-optimal range
I. Washitani & A. Takenaka
359 Mathematical description of the seed germination dependency on time and temperature: short communication
I. Washitani & A. Takenaka
363 Evidence for the H^+-co-transport of D-alanine by the digestive glands of *Dionaea muscipula* Ellis: short communication
P. A. Rea
367 Book reviews

PART 6

Special Issue: Calcium

371 Calmodulin and calmodulin-mediated processes in plants: review
P. Dieter
381 Calcium as an environmental variable: review
I. H. Rorison & D. Robinson
391 The role of calcium in buffering soils: review
B. W. Bache
397 Calcium as a plant nutrient: review
E. A. Kirkby & D. J. Pilbeam
407 Calcium fluxes at plasmalemma and tonoplast: review
A. E. S. Macklon
415 Calcium and plant action potentials: review
M. J. Beilby
423 Calcium and plant organelles: review
A. L. Moore & K. E. O. Åkerman
431 Calcium and the plant cytoskeleton: review
R. E. Williamson
441 Calcium and the cell wall: review
M. Demarty, C. Morvan & M. Thellier
449 Calcium transport between tissues and its distribution in the plant: review
D. T. Clarkson

457 Calcification in aquatic plants: review
M. A. Borowitzka
467 Calcium in fungi: review
D. Pitt & U. O. Ugalde
477 Calcium in plant senescence and fruit ripening: review
I. B. Ferguson

PART 7

491 Occurrence of unstable PEP carboxylase in C_4 grasses in the genus *Spartina* Schreb
A. M. Smith & H. W. Woolhouse
499 Differential effects of ecotoxicological substances on lipid peroxidation of plant cell protoplasts
H. Schnabl, J. Künne, K. Florschütz & R.J. Youngman
507 Contrasting types of photoperiodic response in the control of dormancy
D. Vince-Prue
515 Tropic responses of hypocotyls from normal tomato plants and the gravitropic mutant Lazy-1
J. A. Roberts
521 Abscisic-acid-induced turion formation in *Spirodela polyrrhiza* L. IV. Comparative ion flux characteristics of the turion and the vegetative frond and the effect of ABA during early turion development *C. C. Smart & A. J. Trewavas*
531 Seasonal changes of osmotic pressure, symplasmic water content and tissue elasticity in the blades of dune grasses growing *in situ* along the coast of Oregon
B. M. Pavlik
541 Effects of hydration conditions on the stroma inclusion of some CAM chloroplasts: short communication
I. Santos & R. Salema
545 Time course of photosynthetic temperature acclimation in *Carex eleocharis* Bailey: short communcation
J. S. Veres & G. J. Williams, III
549 Long-term culturing of plants with aseptic roots. Determination of rape root exudates: technical report
M.-L. Häggquist, H. Svenningsson, S. Olsson, P. Sundin, G. Odham & C. Liljenberg
553 Book reviews
559 Erratum

PART 8

561 The role of maintenance respiration in plant growth: mini-review
J. S. Amthor
571 Salt-tolerance in plants. I. Ions, compatible organic solutes and the stability of plant ribosomes
C. J. Brady, T. S. Gibson, E. W. R. Barlow, J. Speirs & R. G. Wyn Jones
579 Salt-tolerance in plants. II. *In vitro* translation of m-RNAs from salt-tolerant and salt-sensitive plants on wheat germ ribosomes. Responses to ions and compatible organic solutes
T. S. Gibson, J. Speirs & C. J. Brady
589 Environmental and genetic control of crassulacean acid metabolism in two crassulacean species and an F_1 hybrid with differing biomass $\delta^{13}C$ values
J. A. Teeri & J. Gurevitch
597 Differences between tree species in hydraulic press calibration of leaf water potential are correlated with specific leaf area
E. R. Hunt, Jr, J. A. Weber & D. M. Gates
601 Changes in plasmalemma organization in cowpea radicle during imbibition in water and NaCl solutions
R. D. Bliss, K. A. Platt-Aloia & W. W. Thomson
607 Spontaneous and induced blocking and unblocking of phloem transport
J. D. Goeschl, C. E. Magnuson, Y. Fares, C. H. Jaeger, C. E. Nelson & B. R. Strain
615 Concurrent measurements of stem density, leaf and stem water potential, stomatal conductance and cavitation on a sapling of *Thuja occidentalis* L.: short communication
M. A. Dixon, J. Grace & M. T. Tyree
619 The effect of temperature and oxygen on the CO_2 compensation point of the marine alga *Ulva lactuca:* short communication
B. Colman
623 Dye-flow apparatus to measure the variation in axial xylem permeability over a stem cross-section: technical report
R. E. Booker
629 Book reviews

PART 9

637 Nitrogen nutrition of seedling grain legumes: some taxonomic, morphological and physiological constraints: opinion
J. I. Sprent & R. J. Thomas
647 The path of photosynthate translocation into citrus fruit
K. E. Koch
655 Germination responses of a seed population of *Taraxacum officinale* Weber to constant temperatures including the supra-optimal range
I. Washitani

661 Effects of low level O_3 exposure on leaf diffusive conductance and water-use efficiency in hybrid poplar
P. B. Reich & J. P. Lassoie
669 Epidermal transpiration and stomatal responses to humidity: some hypotheses explored
D. W. Sheriff
679 Voltage transients elicited by brief chilling: short communication
B. G. Pickard
683 Source–sink characteristics of carbon transport in *Chara hispida:* short communication
M. Andrews, R. Box, A. Fyson & J. A. Raven
689 Qualitative changes in protein synthesis in germinating pollen of *Lilium longiflorum* after a heat shock: short communication
Zhang Hong-Qi, A. F. Croes & H. F. Linskens
693 A new stem hygrometer, corrected for temperature gradients and calibrated against the pressure bomb: technical report
M. A. Dixon & M. T. Tyree
699 Fluorescence microscopy of the endomembrane system of living plant cells: technical report
N. Harris & P. Gates
705 Book reviews
707 Instructions to contributors
